

COMPATIBILITY REQUIREMENTS

Our vendor's publication platform is compatible with several browsers on various operating systems.

The following browsers are officially supported:

- Firefox 3.x (Windows, Mac, Linux)
- Internet Explorer 8.x (Windows)
- Internet Explorer 7.x (Windows)
- Safari 3.x (Mac)

Although the vendor does not officially support the browsers listed below, they have been reported to work with our publication platform:

- Chrome 2.x (Windows)
- Camino 1.6.x (Mac)
- Konqueror 4.2.x (Linux)
- Opera 9+ (Works only with the Flash version of the publication platform)

Using older browsers, non compatible browsers or disabling browser features, such as Javascript, Flash, cookies and SSL, may reduce platform functionality.

Adobe Flash

The Adobe Flash Player plugin (version 8 or higher) must be installed for your particular browser to view the Flash version of the publication platform.

Firewall/Proxies

If you are accessing our website through a firewall or proxy, check with your network administrator to determine if cookies are permitted. Also if you are using a proxy (depending on your settings) you may not always be viewing the most current version of the publication platform.

Pop-Up Blockers

If you have a pop-up blockers installed, it may also prevent some functionality on the publication platform.
